To whom it may concern

I am presently seeking an opportunity to utilize my diverse, creative talents in a professional environment such as yours. I am willing to relocate virtually anywhere, (hopefully within Canada) striving to develop my skills further by working with the best the industry has to offer.

For the last few years I have been focused on web development, web & app design with an emphasis on wireframes, user interface and experience (UI/UX) and information architecture. While maintaining a strong foundation in print and design in both print and digital medias.

Additionally, I offer Google AdWords, Analytics, My Business knowledge. 5 plus years experience in creative direction and branding. Over 10 years of strong, graphic design and marketing experience. I'm a problem solver with an eye for detail and extremely well versed in current industry standards and trends.

I will quickly meet your crucial time lines and you may count on me to be reliable, assertive and dedicated to excellence. I feel confident my experience would be an asset to your team.

Thanks! Speak soon? 519.835.6420
